

Antioch City Council Approves All-Weather Turf Fields

Press Release

Beals Alliance Announces

City of Antioch Moving Forward With All Weather Turf Fields

Antioch, CA - December 13, 2011 - The Antioch City Council approved moving forward with the design to permit the installation of 2 all-weather turf fields and lights for night play at Contra Loma Community Park. Construction is scheduled to tentatively start this spring. The new fields will help alleviate the huge demand for field time the city is currently facing. The field improvements are being funded by Measure WW, a 2010 tax collected by the East Bay Regional Park District and distributed to different cities. Antioch's share is \$4.5 million. The Contra Loma Community Park Project has a value of about \$2.25 million.

About Beals Alliance

Beals Alliance is a multi-disciplinary firm comprised of Landscape Architects, Athletic Facility Planners, and Civil Engineers. Our primary office is in Folsom, CA, with additional project offices in Modesto and Bodega Bay. The firm was founded in 1978. Beals Alliance is dedicated to developing positive client relationships and a collaborative design process. We provide planning, design and consulting services to a range of clients. Over the past ten years, our design team has earned over 40 awards for superior design and project process planning. Our passion for delivering comprehensive planning, creative design options, responsive construction administration and exceptional customer service is what drives our success.
